

Vita Tronic

SPACE HARMONISATION
for all areas of life, for all living and work spaces

EVERYTHING IS VIBRATIONS (WOLFGANG PAULI)

In our modernised world, but also in a natural setting, there are different types of interference zones. When subject to excessive pressure these fields can have an impact on our daily lives and our well-being. Studies show that many diseases may occur due to interference fields. Yet an environment completely without interferences would be unnatural.

However, space harmonisation reduces the amount of interference intensity in diverse areas of life, as well as in living and work spaces, to a healthier level.

What interference zones are there?

- * water veins
- * bedrock disruptions
- * faults
- * Hartmann grid and Curry grid
- * electromagnetic interference zones

INTERFERENCE ZONES

WHAT RADIATION UPSETS OUR BALANCE?

Precipitation that seeps through the soil, accumulating to form, depending on the nature of the strata, underground rivers and streams. These are referred to as **water veins**. Energy is released due to friction generated by the rocks that can be detected by dowsers.

The earth's rock strata are energised through the rotation of the earth. Micro-currents are created through the friction that arises along the fault lines or **bedrock disruptions**.

Similar to the situation to be found in bedrock disruptions, mineral strata also rub against one another in the case of **faults**, which are created through the layers of earth that roll over one another. This leads to radiation.

In the same way as latitude and longitude, the **Hartmann grid** pulls across the globe and forms a natural geomagnetic network. The **Curry grid** runs in an angle of 45 degrees - increased interference values occur at the crossing points.

Electromagnetic interference zones by means of high voltage power lines, radio and radio mobile waves and house electric smog are omnipresent today.

TERRESTRIAL RADIATION AND ELECTRIC SMOG

AS POSSIBLE CAUSE OF MANY DISEASES

The professional literature on the subject associates terrestrial radiation with the following disorders:

water veins

- * joint pain
- * gout
- * rheumatism
- * sciatica
- * migraines
- * insomnia
- * depression

Hartmann grid and Curry grid

- * thyroid diseases
- * kidney diseases
- * stomach and intestinal diseases
- * cramps
- * paralysis
- * diabetes
- * ulcers
- * cysts

bedrock disruptions

- * nervous disorders
- * states of anxiety
- * neuralgia
- * allergies
- * skin diseases

faults

- * irritability
- * inexplicable quarrelsomeness
- * discontent
- * depression
- * developmental disabilities
- * miscarriages
- * childlessness
- * leukemia

electromagnetic interference zones

- * interference with the surface activity of cells
- * interference with blood count
- * headaches
- * fatigue
- * muscle cramps
- * ventricular fibrillation
- * eye flashes
- * tingling
- * tissue heating

VITA TRONIC

HARMONIOUS BALANCE IN AN ELECTRO-TECHNICAL ENVIRONMENT
AS WELL AS WITH TERRESTRIAL RADIATION AND WATER VEINS

Vita Tronic vibrates in a frequency that is related to the earth's magnetic field in resonance (multi-vital frequency). It ensures a physically measurable balance of the static and ultra-low-frequency magnetic field. Thus, the interference intensity in houses, apartments and workplaces can be reduced and a pleasant and harmonious living environment created.

The basis for the design of the Vita Tronic resonator is a hexagonal shape. Examples of these are commonly found in nature in honeycombs, snowflakes or water molecules. Even the symbol of the Flower of Life is based on hexagonal geometry and has represented power and order, harmony and joie de vivre for centuries. The sacred geometry of the Flower of Life is impressed into the resonator of the Vita Tronic and is a wonderful improvement for all living spaces.

The ideal location for the Vita Tronic is a dry room where the Vita Tronic is permanently placed and can swing freely on a stable surface. The Flower of Life is clearly visible and pointing upwards. The Vita Tronic is connected to the electric circuit; the proximity of electrical equipment such as computers, televisions, fuse boxes, pumps, satellite equipment and the like should be avoided for optimal functionality of the Vita Tronic.

INTERFERENCE ZONES

HOW CAN RADIATION BE MEASURED AND MINIMISED?

Ancient wisdom teaches us how interference effects of earth radiation or water veins can be determined by means of rod and pendulum. Interference intensity is thereby estimated in interference units. Values of over 900 interference units can have cell changing effects and be the cause of many disease patterns. On the other hand, experience has shown that a range of 400 to 700 interference units can have a soothing and harmonious effect.

Conscious space planning and harmonious designs can reduce the existing interference intensity. The ancient Egyptian, Roman and Greek master builders already knew this and took it into consideration in construction. Even holistic teachings such as Vastu or Feng Shui have as their goal to enable living in harmony with the laws of nature. Here as well proper construction and interior design play an important role.

BETTER QUALITY OF LIFE

DECREASE OF INTERFERENCE BY MEANS OF VITA TRONIC

Vita Tronic balances increased stimulus values due to earth radiation, water veins, electric smog or cell phone radiation by means of a magnetic biofield. A low-interference environment offers many advantages in everyday life, which can lead to enhanced quality of life.

Observed effects

- * Healthy, restorative sleep
- * More vitality and increased well-being
- * Harmonious living
- * Loving interaction with people and animals
- * Better concentration and performance
- * Strengthened immune system
- * Activation of self-healing powers
- * Revitalisation of food

Physical regeneration

With Vita Tronic energy flow in cells and bodies is reactivated within a short period of time. By briefly standing or sitting (5 to 20 minutes) on the Vita Tronic the natural frequencies of cells and organs are stimulated and tensions and blockages are reduced. Vita Tronic activates all 7 main chakras, works holistically on the human body and brings the energy of life in harmony.

Note: Vita Tronic technology does not heal specific diseases diagnosed by a physician and does not replace medical treatment.

RADIATION INFLUENCE WITHOUT VITA TRONIC EARTH RAYS AND ELECTRIC SMOG AS A CAUSE OF DISEASE?

Different sources of interference lead to increased interference values in living and working areas. Values above 900 interference units can change cells and affect quality of life.

RADIATION INFLUENCE WITH VITA TRONIC

A LOW-INTERFERENCE ENVIRONMENT IN LIVING AND WORKING ENVIRONMENTS

Vita Tronic can lower interference intensity in houses, flats and in the workplace to 400-700 interference units, a range perceived as pleasant.

UNIQUE AND VALUABLE SPECIAL FEATURES OF VITA TRONIC

The hexagonal Vita Tronic resonator is made of high-quality ceramics. Manufacturing is done by hand - each copy is unique. Vita Tronic is available in different colours, so you can select an appropriate colour depending on your taste and interior style. In addition to its harmonising effect Vita Tronic upgrades every living space optically through its shiny ceramic surface with the embossed flower of life.

All production steps in the manufacture of Vita Tronic will take place in Austria. A high-quality end product is guaranteed during each step of production, from the production of the ceramic container to the assembly of electronics.

The power of Vita Tronic can be adapted to the size of the available space and can be set to a DC power supply of 3.0 V; 4.5 V; 6.0 V; Set 7.5 V up to 9.0 V DC.

Besides the standard blue version, Vita Tronic is available in other colours upon request:

MINI VITA TRONIC HARMONISING WHEREVER YOU GO

The Mini Vita Tronic is the ideal solution for small apartments and the harmonisation of individual rooms. The Mini Vita Tronic can also be used in a car, caravan, bus and boat by means of a special adapter. With Mini Vita Tronic the performance can also be individually adjusted and thus adapted to the respective room size.

With stronger influences and/or larger objects such as single or multiple party dwellings, commercial buildings and the like, we recommend use of the original Vita Tronic to achieve the optimum effect.

**7 YEARS
FUNCTIONAL
GUARANTEE***

WITH NORMAL
USE

* except for lightning, overload, intentional/deliberate actions and the like

EXPERT OPINION OF IIREC SUMMARY

The International Institute for Electromagnetic Compatibility Research (IIREC) tested the effect of the Vita Tronic device unit in a detailed four-week series of tests. The tests were carried out at 15 test points, with evaluation of a total of about 8,500 individual data that were selected in the premises of a two-story office building and in its vicinity. They were up to 43 m away from the VitaTronic. Through the selection of the test points various geological and technical situations were recorded.

The effect was determined through purely physical means by measuring the flux density of the static and ultra-low-frequency magnetic field. This area is particularly pronounced in the natural magnetic field and biologically very relevant. For the detection of the spatial structure of the magnetic field the field coherence patterns (FKM) measurement method developed by the IIREC was applied. For objective determination of interference points and zones as well as their interference intensity the IIREC Field Gradient Divergence (FGD) process was used.

The measurements showed that on all 15 points the spatial structure of the magnetic field was more balanced. Interference points and zones were weakened or even disbanded. Although naturally not all field disturbances were eliminated by technical devices, the general consensus of the field changes at all measurement points was a convincing magnetic balancing effect of Vita Tronic technology in the context of natural and technical radiation.
